# Trust Mission and Vision

Mission: To provide medical assistance to injured animals in the Bharuch, Ankleshwar and Dahej area through mobile medical ambulance and contribution to development of society through social and cultural activities

# ONGOING PROJECT WORK BY THE NGO

---

## 1) **Animal Welfare:**

Our NGO is committed in providing medical assistance to **injured animals**. Whenever a request for medical attention of an animal is received our NGO team members reach the provided place and our first aid team member examines the extent of injury. According to the injury, first aid is provided to the injured animal which may include applying **medication, dressing wound or plastering** of injured part. In cases where injection maybe required a qualified doctor who is certified to give injection is contacted and brought to the provided address by our NGO team members. If the injury is severe then the animal is sent for further treatment to the nearby hospital for further treatment. Our NGO only sends the animals to the speciality hospitals that have been working for the treatment of animals for years. Karjan Panjrapol hospital is one such hospital that works for the treatment of badly injured animals. In the same way Chappad hospital is committed for the treatment of dogs.

Currently our team has two experience diploma first aid team members. We also have a **hydraulic ambulance** which provides

better, easier and faster medical service to the animals compared to a normal ambulance. It is the **only hydraulic ambulance in the Bharuch district.**

The Trust only provides first aid & regular medical attention as it currently does not have its own hospital but the trust is trying to build a hospital of its own in the future with the help of gathered funds by donors and well-wishers. Land has been obtained in donation and based on the funds received primary work for the construction of the hospital has been started. It is our humble request to you that you provide help in the Godly work in anyway you can.

The following number of animals were given first aid by Sarthak Foundation as of now

## 2) Birds saving Initiative

**Sparrow housings** were created by Sarthak Foundation Charitable Trust. Bird houses were made of the cardboard material. Sarthak Foundation has distributed **7500 sparrow houses** till now to different houses, ngos and animal lovers. Sarthak foundation has also distributed more than **700 vessels** for drinking water for birds in Bharuch district.

Sarthak Foundation Charitable trust has been organizing a camp in Bharuch district for the treatment of injured birds during the month of January. **Around 50000 students from 50 schools are contacted by the members of sarthak Foundation.** The students are informed about the harmful effects on birds and humans of irresponsible use of Dora during Uttrayan. The students are shared the helpline number for the treatment of injured birds so that they can call the members of the first aid camp regarding the treatment of the injured birds.

**Sarthak Foundation has started a campaign since 2018 regarding the recovery of dora from roads, terraces and trees.** With the help of students, Sarthak Foundation had recovered **150 kilogram dora in 2021 and 650 kilogram dora in 2022.** For this prosperous work done by the students around

**5000 students** were given certificates for their motivation by the Bharuch Forest Department and Sarthak Foundation.

### 3) Improving longevity and quality of animal lives

#### Radium Belts

With an aim to prevent harm caused to both animals and humans radium belts were made for **around 100 animals in 2021-2022**. For cows, the radium belt were worn on their horns and for dogs on their necks. At night the radium shines and prevents accidents between animals and humans.

#### Treatment of skin diseases

Every year members of our team organize a day for the treatment of stray dogs suffering from skin diseases. The disease is known as kharajwa where the hair on their skin falls off and the skin becomes itchy . The dogs are given Ivermetin tablet for the treatment of this disease. **Every year around 500-600 dogs** are treated of this disease by volunteers of Sarthak Foundation.

## Arrangement of vessels for food and water

Sarthak Foundation has arranged **450 Heavy vessels of 50 litre capacity** for drinking water of animals. Sarthak Foundation has also made arrangement of food vessels.

# SOCIAL ACTIVITIES DURING THE YEAR

---

The organization is also committed to social activities for the upliftment and development of the society.

## 1) Social work during covid

- Help to needy families

**Sarthak Foundation tributed 30 kits of wheat, rice, daal and spices to needy families.**

- Oxygen Concentrator

- **Two number of oxygen concentrators** were given to Seva Yagna Samiti for the use of people suffering from oxygen related problems

- **Food distribution**

Covid patients were given **10 litres of lemon Juice everyday**

For animals **20000 Rotla, 200 kg Jaggery (Gud), 4000 kg Grass and 5000 no of Parle G biscuits** were given to stray animals in different parts of Bharuch District.

## 2) Engagement in schools

During **Ganesh Utsav** this year **Sarthak Foundation** visited **Shabri** school in Bharuch and distributed 300kgs **ecofriendly** mud to the students of shabri school to prepare **Ganesh Bhagvan Murti**. The students enjoyed preparing the murti with the mud and at the same time environment was taken care of by this initiative by sarthak foundation.

### 3) Cultural Development and upliftment

1) Sarthak Foundation has ongoing Baal sanskar kendra. **Around 40-50 children** participate regularly in this **baal sanskar Kendra** where their cultural development takes place. Sarthak Foundation has also organized many events in the past for cultural development of children.

# Recognition for work

Nikita Soni 

9 September 2021 · 

Humanity is still alive. 🙏🙏

Rotating ambulance by B.G.P Group and Sarthak Foundation Charitable Trust helped our Nandi Baba to take to Surat Gaushala for the first aid of silent creatures roaming on the road. I thank him for that. 🙏
